PROFILE SUMMARY

Full Stack Developer with a strong frontend focus. Specialized in React, Next.js, and TypeScript, I build scalable, responsive, and high-performance web applications. Experienced in micro frontends, SEO optimization, and modern UI frameworks.

WORK EXPERIENCE

- Frontend Developer – Santander Consumer (via RHT) (2026 – Present)
 - Dynamic Loan Simulator: Built a dummy frontend that consumes backend JSON responses to dynamically render loan simulation flows. Designed and implemented a custom component library to standardize UI across the project.
 - Loan Request Dashboard: Developed a dashboard application enabling users to request loans online. Focused on usability, responsive design, and integration with backend services.
- Software Developer – Santander Technology (via RHT) (May 2025 – Feb 2026)
 - Contributed to internal banking tools and digital solutions.
 - Collaborated with cross-functional teams to deliver secure, scalable applications aligned with Santander's technology standards.
- Frontend Developer – Flux IT (Jul 2022 – May 2025)
 - Developed scalable applications using React, Next.js, and TypeScript.
 - Implemented micro frontends and optimized performance, reducing load times by 30%.
 - Contributed to projects including a social network, leadership tools, and an AI bot.
- Full Stack Developer – Palermo Magazine (Feb 2022 – Jul 2022)
 - Maintained backend systems and managed data pipelines.
 - Improved frontend usability and ensured smooth digital publishing workflows.
- Freelance Full Stack Developer (Apr 2020 – Feb 2022)
 - Built multiple e-commerce platforms for organizations in Buenos Aires.
 - Specialized in React for frontend and Node.js + MySQL for backend solutions.

EDUCACIÓN

- UTN – Software Development Technician (ongoing)
- Udemy – React Pro
- Coderhouse – Mobile Development
- Digital House – Full Stack Development
